

Options AC en Process Chillers

- Application:** AC comfort chiller and medium temperature process cooling.
- Option 1:** Winter package for extreme low ambient temperature.
- Option 2:** Weather casing with mechanical ventilation. ATEX fans.
- Option 3:** Closed casing with sound-proof panel, mechanical cooling and NH₃ blow out. ventilation. ATEX fans.
- Option 4:** General exhaust pipe connecting all relief valves to the outside of casing.
- Option 5:** Liquid injection for oil temperature protection.
- Option 6:** 3-way regulating valve at water inlet connection for head pressure control of water-cooled condenser.
- Option 7:** Hybrid air-cooled condenser/dry cooler are available for air-cooled/water-cooled chillers. Please contact SCM Ref for details.
- Option 8:** Adaption to NH₃ CO₂ application on request.
